Aspirin and non-steroidal anti-inflammatory drugs in atherosclerosis and osteoporosis. Prostaglandins play a key role in the regulation of many aspects of health and disease. Selective COX-2 inhibitors are potentially harmful to patients who take non-steroidal anti-inflammatory drugs (NSAIDs) for osteoarthritis or low back pain and rheumatoid arthritis. Two recent reports, one clinical trial and one laboratory study, demonstrate that NSAIDs may increase atherosclerosis. Moreover, both clinical trials and animal studies demonstrate that COX-2 inhibitors enhance bone resorption and decrease bone formation. This paper reviews clinical and animal studies of the effects of NSAIDs on atherosclerosis and bone formation, and mechanisms by which COX-2 inhibitors could affect these conditions. Details The Goodyear ARC4 is the new tire for the CX/MV200 series. The ARC4 is a new generation tread pattern which has been designed to combine the performance of a firm tire with the grip of a soft compound and at the same time to perform perfectly in the extreme conditions encountered on the most modern day competition and touring bikes. The ARC4 tread pattern is also designed to deliver the highest mileage. It is ideal for all surfaces from smooth tarmac to rough and dirty road surfaces. A light weight tire provides incredible control and is the perfect combination for both road and track riding. This is the tires for the CX/MV200 inboard brakes. They are a 700x28mm version of the Goodyear ARC4. Technical Data Tire Type In 82157476af
